SUMMER IS THE SEASON

It's the summer season, you have a corporate or private event or party to host but can't face the hassle and don't know where to begin with the organisation?

Sounds familiar? Well don't panic, because help is at hand. One new on-line Aberdeen company hopes to solve those dilemmas and take away your stress by helping you find everything you might need to create the perfect event.

It's the brainchild of Aberdeen based businesswoman June Ross who saw the gap in the market for a website aimed at giving people easy and direct access to a variety of suppliers, services and venues at the click of a button.

You might be looking for a striking venue, stylish transport, special effects, a fabulous entertainer or unique cake for your child's birthday. What ever it is, YourEventScotland.com's aim is to make it easier for you to find what you are looking for in a personal and friendly way.

Highland- born June has a strong sense of the best of what Scotland has to offer, and having spent many years living abroad, has experienced a wide variety of cultures and services.

'We know from personal experience how complicated and stressful it can be to organise the perfect event. We've done it ourselves and we understand the attention to detail required, the sourcing dilemmas and the little last minute hitches that can cause a major headache. That's why we believe our simple and free-to-use, online one-stop-shop, providing a directory of everything you could possibly need, is the answer.'

'Our unique selling point is our attention to detail and friendly service. If we don't have, please ask and hopefully we can help source your special request. We love great ideas, unusual venues and quality suppliers and as we build up our directory, we are always on the look out for unique businesses to feature on our site.'

'Scotland's a treasure trove of hidden gems which aren't obvious even to those of us who live here and people are increasingly keen to find them. So if you know of a spectacular location for example, or have discovered something outstanding which we are unaware of, please point them out to us! she added.

ORGANISE THE PERFECT EVENT
